When I play this game, I feel almost like Fox Mulder if he had been placed in the SETI program instead of the X-Files. Wonderful game, can't wait to see what the future brings!. Feels like it needs about ten years worth of devlopment still.. Nice game If you want to chill down and relax.. maybe a bit short, optimization could be better, but I liked it.

Would have enjoyed the possibilty to drop some s**t on people, though..

Im actually so angry with my self for getting drunk enough to download this abomination. GIVE ME MY MONEY BACK!. you know why you bought this. Simple but good , i really recommend that game. Potential for a great game,

The only thing holding it back is the lack of content.

DEVS ADD MORE CONTENT PLEASE

New maps (forest, parking lot - that sort of stuff)

Make the maps larger, they dont need to have more stuff they just need more room for building

More base enhancements/building blocks

Weapons have a pretty good range but more never hurt anyone

More NPC's (I know there's been more added already and its great keep up the good work!)

AI could do with a little work, especially later in the game when they just clump up into a mass and patiently wait their turn to murderise your base

9/10 would survive another night again.. If u like cartoons adventure time action and some good gameplay a adult or kid this game is for YOU. DONT DOWNLOAD THIS TRASH!!!. Could be good, but the controls are a bit... off. Other than that, not a bad game.
